WHY DOJOY ?

• Certified as a "**National High-Tech Enterprise**" in China with **40+ patents**(pg.23), ensuring exclusivity and technological superiority.

• **25+ years of experience (since 1998)**, specializing in premium outdoor living solutions.

• **In-house factory covering over 26,000 m²** with advanced equipment to support large-scale production.

• Extensive product range **including pergolas, rattan sofas, and aluminum-frame seating**, featuring modern and elegant designs.

• **ISO 9001 certified quality management system**.

• Core products tested and **approved by TÜV SÜD** for safety and performance.

• Supported by advanced technology, our R&D team provides technical expertise while our production team ensures rigorous quality control throughout the entire process.

• **Exported to 7 countries**, trusted by international clients worldwide.

• **Successfully completed BSCI Audit**, demonstrating our commitment to ethical practices.

• **Reducing over 400 tons of CO_2 emissions annually**, by packing in GRS material and FSC carton committed to sustainable development.

Transform Every Inch of Outdoor Space into an Ideal Haven

At Dojoy, we specialize in the design and production of bioclimatic pergolas, enhancing comfort in courtyards, terraces, and commercial spaces alike. Our versatile louver systems, combined with a wide range of optional accessories, create inviting outdoor environments that can be enjoyed year-round.

Inspired by innovative design and driven by a commitment to human-centered experiences, Dojoy is dedicated to crafting outdoor spaces that are both warm and functional.

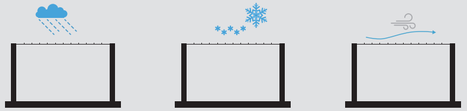

Outdoor Living Comfort

The adjustable aluminum louvers are resistant to solar radiation and are completely waterproof when the louvers are closed.

Total control of solar radiation and temperature by ventilation.

Total protection against rain, snow and wind.

Hidden drainage system

The high-efficiency drainage system is hidden in the structure allowing rainwater to flow into the poles, preventing water buildup and ensuring the pergola stays dry and clean.

Beam water tank

Pole floor drains

Topped with a streamlined decorative cover.

The pole base is designed with a reinforcing rib structure, enhancing its load-bearing capacity and stability.

Bioclimatic Pergola Accessories

Customize your pergola with a variety of integrated accessories, designed to optimize both your comfort and style:

1.Zip Screen:
Provides extra shade, enhanced privacy, and insect protection.

- Selectable modes: **Manually** or **Motorised**

2.LED Light:
Creates a warm atmosphere for you throughout the night.

- Selectable modes: **Manually** or **Motorised**

3.Shutter Wall:
Strikes the perfect balance between privacy and natural light.

170°

The blades can be fixed or movable, with movable blades offering a flexible 170-degree rotation.

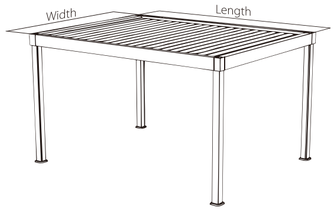

4.Waterproof curtains and insect nets:
Create a private, mosquito-free space, fully protected from rain.

24V Designed to operate on 24V low-voltage, all electrical appliances installed in the pergola ensure safe and reliable operation.

TL01

Material: ***Aluminum***

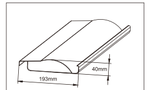

W(Blade parallel edge) x L

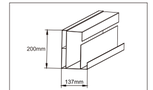

Unit: m	3*3	3*4	3*5	3*6
Unit: ft	10*10	10*13	10*16.4	10*20

Retractable louvered pergola

The TL01 retractable louvered pergola utilizes a dynamic louvered roof to regulate air circulation, ensuring a pleasant environment regardless of temperature or weather conditions.

Louvered Roof

The louvers can be electrically rotated to open or close at angles up to 90°, providing customizable ventilation and light control.

louver open

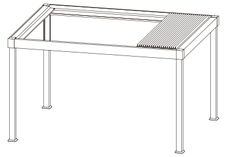

louver close

The TL01 retractable louvered pergola features electrically retractable blades, giving you full control over sunlight, shade and open-sky views.

+ Selectable modes for the retractable louvers:

Double-sided retraction

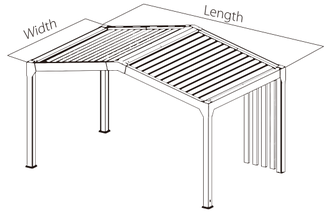

Single-sided retraction

TL04

Material: ***Aluminum***

Pole

Sloped Roof Intelligent Retractable Louvered Pergola

Sloped roof drains rain quickly and prevents snow buildup better than flat designs. It also gives the pergola a sleek, modern look and makes the interior feel slightly taller and more open.

90° rotation

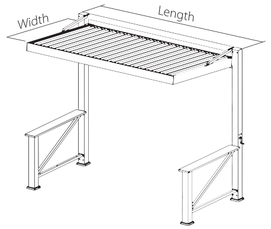

fully retracted

Remote control lets you first rotate louvers 90° for sunlight, then electrically retract them sideways – opening the entire roof for a completely unobstructed view

Pole

Minimalist aesthetic design

Hidden hand crank
Integrated discreetly within the column, it perfectly balances function and minimalist design.

The hand crank design enables 360°rotation, allowing you to adjust the louvers' angle from 0 to 90 degrees.

Upper Corner
Defined by clean lines and geometric precision, it embodies the beauty of minimalism.

Practical design

Louver Brackets
Constructed from stainless steel, these brackets resist wear and corrosion, thereby extending lifespan and enhancing structural stability.

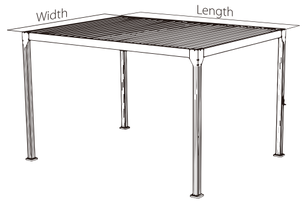

TZ06

Intelligent lighting

Our TC01 carport features an integrated solar power system that efficiently captures sunlight, converts it into electricity, and stores the energy in a high-performance lithium battery.

Paired with advanced radar sensing technology, the TC01 carport constantly monitors the movement of vehicles and people within the carport. This system automatically adjusts the brightness of the LED lights, providing a seamless and energy-efficient solution.
